ExamWritePad is a predominately offline software that won't require a connection to the internet in order to run normally, however there are some specific scenarios where ExamWritePad can make a connection in order to apply a trial or an update.
Details of the URLs ExamWritePad communicates with for these scenarios are below -

30 Day Trial:

ExamWritePad will need to be able to reach the following URLs in order to set-up and apply its built-in 30 day trial -

- https://examwritepad.com/getconnectionstate.php
- https://examwritepad.com/getdate.php
- https://examwritepad.com/getIP.php
- https://examwritepad.com/License_Trial.php

In-App Updates:

ExamWritePad will need to be able to reach the following URLs in order to check for, download and apply updates using either the in-app option or automatic checking service -

- https://examwritepad.com/update-file.txt
- https://examwritepad.com/update-version.txt
- https://examwritepad.com/wp-content/uploads/3571/zip/2024/09/06/ExamWritePad.zip
