

Installing Read&Write For Mac Plugin For Firefox

Last Modified on Tuesday, 27-Apr-2021 10:23:57 BST

If the Read&Write Firefox add-on has not previously been installed you will be prompted to install the plugin when using Read&Write 7 with Firefox

Please close Read&Write from the Mac menu by quitting before following the steps below

1) Open Firefox and it prompt you to install the extension which is installed with Read&Write.

2) You will then be prompted to install the plugin:

Click **Allow** to install the plugin

3) You will then be prompted to install the plugin:

Click **Install** to complete the process

4) Close **Firefox** from the **Mac** menu by quitting

5) Restart **Firefox** and launch **Read&Write**. **Read&Write** will now function with **Firefox**
