Equatio for Desktop Supported Operating Systems and Word Versions

Last Modified on Thursday, 10-Apr-2025 21:21:00 BST

Equatio (Desktop) is compatible with the following Operating Systems and Microsoft Word versions:

Windows : 10, 11

Mac OS : 12.0 Monterey, 13.0 Ventura, 14.0 Sonoma

Microsoft Word (Windows) : 2013, 2016, 2019, 2021

Microsoft Word (Mac) : Word 16

Powerpoint

Inserting equations as MathType and LaTeX are currently only supported from Word 16(v16.16.9) for Mac and Word 2016(build 1906)for Windows. Inserting equations as images will still work on Office 2013 for Windows.

- 1.6 gigahertz (GHz) or faster x86-bit or x64-bit dual core processor
