

# Installing The Arabic Microsoft Naayf Voice

Last Modified on Monday, 23-Mar-2026 14:39:56 GMT

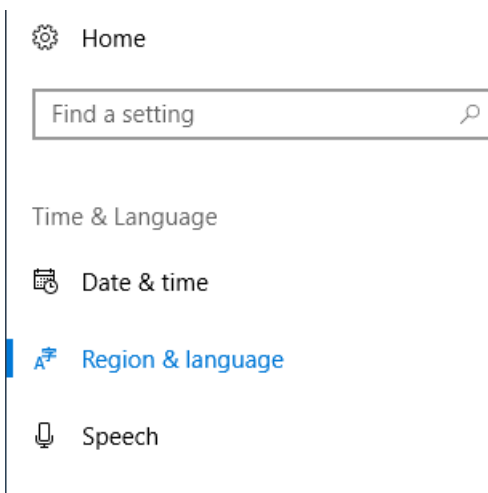

1. Select the Windows start button and select Settings.

2. Choose **Time and Language**

3. Select **Region and Language**

4. Select **Add a language** then choose **Arabic**

## Languages

You can type in any language you add to the list. Windows, apps and websites will appear in the first language in the list that they support

5. Choose the **Arabic (Saudi Arabia)** language and install. When installation has finished you will return to the **Region and Language** page.

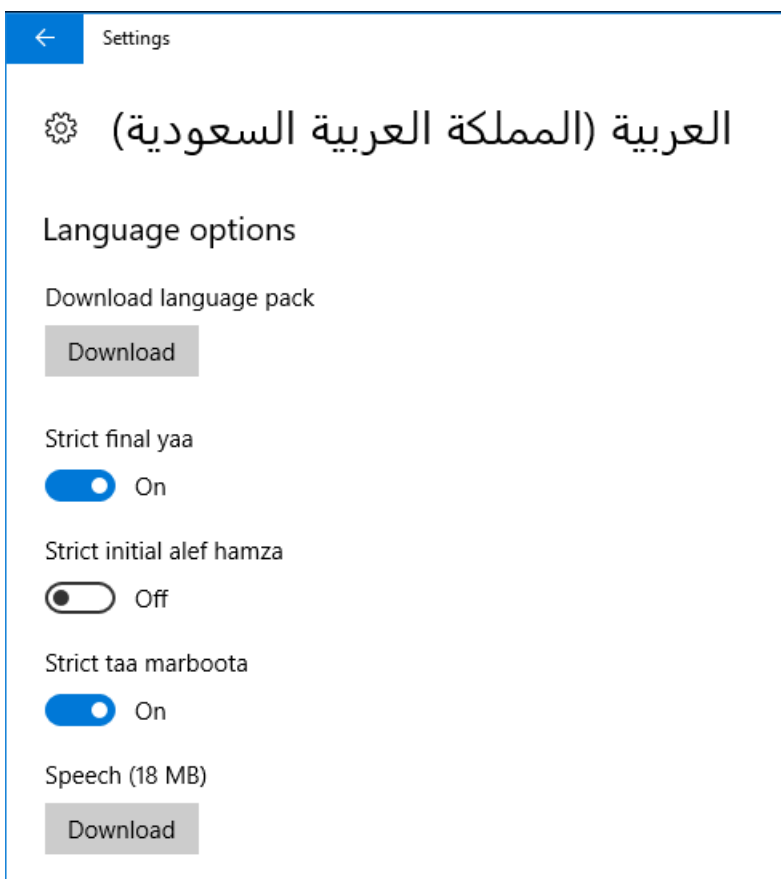

## العربية (المملكة العربية السعودية)...

Arabic (Saudi Arabia)

6. Select the Arabic (Saudi Arabia) language and choose **Options**

7. Under **Download Language pack**, select **Download** then under Speech select **Download**

8. When downloads are completed under **Speech** the download button will be replaced with a **Settings** link

## العربية (المملكة العربية السعودية)
