

# Data Desk Removing Permissions

Last Modified on Wednesday, 03-May-2023 10:57:07 BST

To remove Data Desk permissions from your Google account (you may need to do this whilst troubleshooting error 422 or if Data Desk is not operating as it should)

Open the Google account associated with Data Desk

Open the security panel from the left hand menu

Navigate to Third-part apps with account access and click Manage third-party access

## Third-party apps with account access

You gave these sites and apps access to some of your Google Account data, including info that may be sensitive. Remove access for those that you no longer trust or use.

-  **Atlassian**  
Has access to Google Drive
-  **ClaroSpeak**  
Has access to Google Drive
-  **DataDesk**  
Has some account access

+9 more

[Manage third-party access](#)

Click on DataDesk and then Remove Access

## DataDesk

Has some account access

REMOVE ACCESS

Has access to:

### Basic account info

See your primary Google Account email address

See your personal info, including any personal info you've made publicly available

### Additional access

View the email addresses of people in your classes

View your Google Classroom classes

View your Google Classroom class rosters

Homepage: ?

<https://support.texthelp.com/help/using-datadesk>

Access given on:

52 minutes ago

See something suspicious? [Report this app](#)

When you next sign in to Data Desk, you will be prompted to accept the permissions again.
