**Simplify AI** is a new beta feature in Read&Write for Google Chrome. It takes existing content from webpages and makes it easier to understand. It does this through the use of advanced AI algorithms developed by OpenAI.

Please be aware of the following limitations of this experimental feature:

- Word Count limits: Simplify AI can be used on content ranging from approximately 75 to 2300 words. This range is designed to accommodate a variety of content while maintaining readability.
  - Simplify AI can be utilized by each user a maximum of ten times per day.
