

# Only Some Of My Read&Write for Windows Buttons Can Be Used

Last Modified on Monday, 23-Mar-2026 14:25:42 GMT

If you've been using Read&Write and you find that most of the buttons become unavailable, this may be because:-

## 1 You need to renew your subscription.

To check the expiry date of your license, go to Read&Write Settings > About Read&Write

## 2 You need to activate Read&Write using your Read&Write Product Code.

To activate Read&Write:-

- Go to Read&Write settings > About Read&Write
- Enter your Product Code and click Activate
-
