

# Admin Installation of OrbitNote for Canvas

Last Modified on Thursday, 15-Aug-2024 18:00:11 BST

The following instructions are for **Canvas Administrators** to add the **OrbitNote LTI** to their **Canvas** environment. For **Teacher/Course Designer** instructions to add **OrbitNote** to specific **Canvas** courses, please click here: <https://support.texthelp.com/help/adding-orbitnote-for-canvas-through-the-canvas-app-center>

Note: An Unlimited license for OrbitNote is required to have access to this integration

Log in to your **Admin Dashboard** and select **“Settings”**

The screenshot shows the Canvas Admin Dashboard interface. On the left is a dark sidebar with navigation icons for Account, Admin, Dashboard, Courses, Calendar, Inbox, History, Studio, and Help. The main content area is titled 'Texthelp > Settings'. Below the title is a horizontal menu with tabs: Settings (selected), Quotas, Integrations, Notifications, Admins, Announcements, Reports, Apps, and Feature Options. The 'Account Settings' section is displayed, containing several configuration options:

- Account Name:** Texthelp
- Default Language:** Not set (defaults to English (United Stat) [dropdown])  
This will override any browser/OS language settings. Preferred languages can still be set at the course/user level.
- Default Due Time:** Account default (11:59pm) [dropdown]  
This influences the user interface for setting due dates. It does not change the time due for any existing assignments.
- Default Time Zone:** Eastern Time (US & Canada) (-05:00/-0) [dropdown]  
Maintenance windows: 1st and 3rd Thursday of the month from 2:05am to 4:05am (Thursday from 6:05am to 8:05am UTC)  
Next window: Thu Sep 5, 2024 from 2:05am to 4:05am  
For maintenance window details please see the [release notes](#).
- Allow Self-Enrollment:** Never [dropdown]
- Trusted HTTP Referers:** https://example.edu  
This is a comma separated list of URL's to trust. Trusting any URL's in this list will bypass the CSRF token when logging in to Canvas.
- Default View for Dashboard:** Card View [dropdown]  
 Overwrite all users' existing default dashboard preferences
- Don't let teachers rename their courses

At the bottom right of the settings area, there is a blue 'Update' button.

Click on the **Apps** tab and then search for **OrbitNote** then select the OrbitNote entry

Settings Quotas Integrations Notifications Admins Announcements Reports Apps Feature Options

## External Apps

Manage App List View App Configurations

Apps are an easy way to add new features to Canvas. They can be added to individual courses, or to all courses in an account. Once configured, you can link to them through course modules and create assignments for assessment tools.

**OrbitNote**

OrbitNote allows you to transform and interact with documents in a completely different way. Create an accessible, dynamic and collaborative space that works for everyone.

Open digital documents in Canvas, then use OrbitNote to:

- Collaborate in real-time within digital documents
- Read text, including math & science equations, aloud with easy-to-follow dual color highlighting
- Type text on top of your PDFs with the Text feature
- Highlight and extract information with colored highlighters
- Add text and voice comments or use pushpins for helpful hints or instructions
- Use freehand or shape drawing to scribble and draw on your digital documents
- And more!
