Getting Started with Orbitnote and Read&Write for Google Chrome

Last Modified on Wednesday, 28-Aug-2024 15:57:46 BST

Download Extensions:

1. Go to the Chrome Web Store to add the Read&Write and OrbitNote extension to your Chrome browser. You should also add the Screenshot Reader extension, but it does not need to be pinned.
    - For Read&Write: Download from Chrome Web Store
    - For Screenshot Reader: Download from Chrome Web Store
    - OrbitNote: Download from Chrome Webstore

2. Pin the Read&Write and OrbitNote Extensions:
    - After installing, click on the Extensions icon (shaped like a puzzle piece) next to the Chrome address bar to view all your extensions.
    - Locate Read&Write and OrbitNote in the list. Next to it, you'll see a "pin" icon. Click this icon to pin the Read&Write extension to your Chrome toolbar for quick access. The Screenshot Reader extension does not need to be pinned and will work in conjunction with Read&Write when needed.
    - Repeat the process for OrbitNote

3. Sign In with Your School Email:
    - Click on the Read&Write (purple puzzle piece) icon now visible on your Chrome toolbar.
    - *Recommended: First time use, open in Google Docs
    - When prompted, sign in using your school email address to activate the extension's full capabilities.

    - Click on the Orbitnote extension icon.
    - Sign into orbit.texthelp.com with your school email to get started. You can reference this article for further information on Orbitnote.
