Equatio on iOS

Currently, Equatio does not have an iOS application.

Equatio does have a feature which combines with/inputs to the Equatio desktop/extension toolbar called Equatio mobile which you can read about here:

https://www.texthelp.com/products/equatio/equatio-mobile/

You can also access Mathspace on iPads through this link:equatio.texthelp.com

 Be sure to sign in with your licensed school email address when prompted.
