

Is there a Trial or Demo Version of ExamWritePad?

Last Modified on Thursday, 06-Feb-2025 10:36:17 GMT

ExamWritePad includes a built-in 30 day trial that anyone can access just by downloading the software from our public downloads page: [ExamWritePad Downloads](#)

All features will be available and the software will function exactly as it would on a paid license. There is no difference in the version of the software used for a trial or paid license, so if you do decide to purchase, you do not need to reinstall or re-setup the application; you just need to apply the license file you will receive on purchase to resume using it after your trial ends. Any configurations you apply during your trial will remain in place.

Please Note: The built-in trial of ExamWritePad requires an internet connection to function. A list of URLs used by ExamWritePad when making this connection can be found [here](#), and need to be allowed/whitelisted.
