

How to Recover Annotations Made in OrbitNote Classic

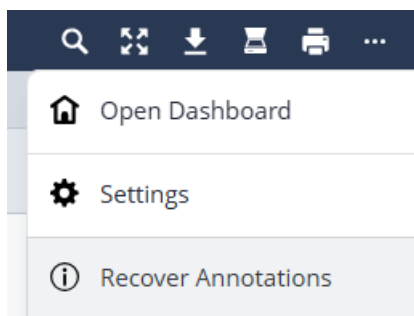

Last Modified on Thursday, 24-Jul-2025 15:14:42 BST

With the switch to the new version of OrbitNote, any annotations that were made in OrbitNote Classic will no longer be visible in the new version.

In order to make those old annotations visible, you will need to use the **Recover Annotations** feature:

Open the PDF that you would like to retrieve Annotations from -> then click on the 3 dots in the top right of the OrbitNote toolbar -> Recover Annotations

Allow a few moments while OrbitNote retrieves and downloads your annotations:

ucibus odio.

Getting your annotations...

Once complete, a new file will be created with the existing annotations now available to be viewed in OrbitNote

Note:

This will "Burn" the annotations onto the page, so they will be visible but unable to be edited.

Larger PDFs may take some time for the annotations to download
