

# Browsers We Support

Last Modified on Thursday, 11-Sep-2025 10:33:22 BST

You can use **Read&Write for Windows** with **Google Chrome** or **Microsoft Edge**. When you open one of these browsers, you'll be prompted to install an extension that lets Read&Write **connect with your browser**.

Other browsers like **Firefox** aren't supported — for the best experience, be sure to use Google Chrome or Microsoft Edge.
