

# I purchased MindView but did not receive my license key

Last Modified on Friday, 12-Dec-2025 14:53:34 GMT

If you purchased MindView Suite, you will not need a license key to activate the software. MindView will get activated as soon as you log in using the credentials you used to sign up to MindView Suite.

To sign up to MindView Suite please use the activation link provided in the Welcome Email. Once you are signed up you should be able to access <https://accounts.matchware.com>, where you will be able to manage your account and also download MindView.
