

# Can I use MindView Drive on the Mac version of MindView?

Last Modified on Friday, 30-Jan-2026 10:31:39 GMT

MindView for Mac does not support the MindView Drive features that are available on the Windows and Online versions.

## Which MindView Drive features are not available on Mac?

The following features are not supported on the Mac version:

- Saving files directly to MindView Drive
- Sharing files via MindView Drive
- Multi-user collaboration on mind map

## What can I do with MindView Drive on Mac?

Mac users can download any mind map saved on MindView Drive, including:

- Files created via the Windows or Online versions.
- Maps shared with you by other users.

## Will my changes sync back to MindView Drive?

No. Downloaded mind maps are saved locally on your Mac. Any changes you make will apply only to that local copy and will not be synced back to the original file on MindView Drive.
