Activating Read&Write For Mac Offline

Please find some instructions below to activate your copy of Read&Write for the Mac offline.

Manual Activation for Read&Write (Group / Unlimited Licences)

If you need to manually activate Read&Write on your machine, follow the steps below.

Step 1 - Download the THInfo Tool

Download the THInfo program.

Note: The file is provided as a compressed (ZIP) folder and must be extracted before use.

Step 2 - Run the Tool

- Extract the downloaded ZIP file

- Open the extracted folder

- Run THInfo.exe on the machine where Read&Write is installed

Step 3 - Generate the Information File

- Tick the option: "Allow this information to be collected"

- Click Save

Step 4 - Save the File

- Choose a location to save the generated file

- Save the file to your preferred location

Step 5 - Send the File to Support

Send the saved file to our Support team, and include the following details:

- Your Product Code

- The Domain of your network linked to the Product Code

What Happens Next

Once we receive your file, we will generate and provide your Read&Write activation file.
